

4

4 LA PRAIRIE ADVANCED MARINE BIOLOGY CREAM, RM700 taps into the sea's protective powers to bring you five deep-sea elements in a treatment that women and men can begin using in their 30s to counteract the early stages of ageing skin. The synergy among key marine elements enhances the skin's own protective mechanism and natural repair process.

5

5 BIOXIL ADVANCED ANTI-AGING FIRMING MOISTURIZER, RM590 is a highly concentrated cream that restructures and moisturises the skin's intercellular matrix while protecting it from sagging. Among key ingredients are Age Killing Tripeptide, a botanical ingredient that protects the structural resiliency of skin; Wrinkle Preventing Agents which repair age-related skin damage for effective restoration; and Larch extract, a moisture control additive.

6

6 DIOR CAPTURE R60/80™ XP WRINKLE RESTORING EYE CREME, RM310 unleashes the power of adult skin stem cells in fighting wrinkles and skin ageing. The key weapon is its system Stemsome™, which targets the structural weaknesses of wrinkles one by one. Deposited by Stemsome™ into the deepest layers of the skin, the powerful ingredients activate the body's natural self-repair processes.

7

7 SHEERSECRET® DEEP ACTION EYE CREAM™, RM168 formulated with natural plant extracts and four powerful antioxidants to defend delicate eyes against environmental hazards that promote premature ageing. It penetrates the skin to smoothen skin texture, diminish wrinkles and reduce puffiness and dark circles.

ADELE WONG, 37

Director, University of Portsmouth - Southeast Asia Regional Office

“ Beauty is only skin deep. But having said that, I think if we can afford it, it is important to have some element of skincare in our daily routine. This is especially true with the kind of environmental hazards we’re exposed to nowadays. ”

My goals are meeting my career aspirations and being the best mother in the world to my son – quite a challenge when it comes to time! I’m usually up early to spend some time with my son before going to the office. I try to keep my evenings free, but when work beckons, I wind up working till late.

No matter how busy I get, I never waver in my skincare. I use Bioxil’s ADVANCED ANTI-AGING LIFTING ESSENCE, which stimulates collagen production and smoothes wrinkles and fine lines. I also use ADVANCED ANTI-DOT ESSENCE and I can see why it’s recommended for women with enlarged pores and oily skin. I love how it keeps my skin oil-free all day. Since using it, I’ve even noticed a reduction in blackheads!

One product I will never skip in my nightly routine is the ADVANCED WRINKLE LIFTING EYE CREAM. I enjoy how lightweight and soothing the cream is - it’s so easily absorbed into the delicate skin around my eyes. I’m a firm believer in this product because I’ve seen how it has helped eradicate the puffiness, dark circles and even unsightly bags around my eyes.

Taking care of myself enables me to face life with confidence, and I’m keen to see what’s in store for me when I hit the big 4-0!

1. Bioxil Advanced Anti-Aging Lifting Essence, RM560
2. Bioxil Advanced Wrinkle Lifting Eye Cream, RMXXX
3. Bioxil Advanced Anti-Dot Essence, RM190
