A 360° Approach to Beautiful Skin

You know what they say: outer beauty radiates from inner balance. And who knows this better than the Swiss? From the leading laboratories of beautiful Switzerland comes Bioxil—an extraordinary beauty revolution that was designed and formulated with the modern woman in mind: the modern woman who is educated, leads a fast-paced life, demands quality that's simply second to none and is results-driven in every aspect of her life, especially when it comes to her skin. For this woman, there is only one obvious solution and that solution is Bioxil.

A New Way To Love Your Skin...

The Bioxil revolution combines an innovative cosmeceutical skincare line to restore and repair the skin on the outside with nutraceutical supplements to nourish and detoxify from the inside.

...On the outside

Cosmeceuticals are skincare products that are almost 'medical' in nature and this is an accurate description of the Bioxil Skin Care System. Comprising three skincare lines, the comprehensive Bioxil Skin Care System has products that are designed to meet specific needs of modern women. From Anti-Aging to Lifestyle to

Whitening, it's a system built around an advanced, innovative and structured concept that produces visible results in minimum time.

...On the inside

On the nutraceutical front, Bioxil Innertreats complete the skincare system by nurturing your beauty from within. Each nutritional supplement comprises natural health food extracts to enhance your health and beauty, optimise DNA function and stimulate faster cell renewal.

Bioxil Skin Care System

Made from natural whitening and anti-wrinkle agents, these skincare lines are developed using Nano Technology and Advanced Liposomal Delivery Systems to optimise the delivery of ingredients to targeted skin cells.

Anti-Aging

Prevents degradation of skin and restores the skin to a state of equilibrium.
