HYBRID GOLD, MAN-MADE DIAMONDS AND MORE...

**We Test Drive**  
Lip Plumpers For Instantly Sexy Pouts

## TONERS & LOTIONS

Energy-giving bioferments, advances in nanotechnology, heavyweight ingredients, and peptides are giving your trusty old toner a makeover.

From top: Rice plant water in **Kenzoki Fondant Rice Lotion**, \$48, eliminates free radicals in your skin, while White Hibiscus locks in hydration, both deep down and on skin's surface.

- Acting as a toner, the Solution in **Bioxil's** preservative-free **Two Weeks' Ageless Miracle** (a four-piece set, \$680 for a month's supply) uses a peptide complex to boost skin's cell metabolism, cell renewal, and defense system. Visit [www.mybioxil.com](http://www.mybioxil.com) for more information.

- Estee Lauder Re-Nutriv Ultimate Lifting Lotion**, \$110, uses mineral- and nutrient-rich glacial water from the Swiss Alps to quench skin's thirst for moisture.

- Advances in nanotechnology enable **Chanel's Precision Hydramax+ Active Nanolotion**, \$71, to deliver a carob tree extract to skin in extremely fine, ultra-absorbable lipid particles. The extract boosts skin's moisture-producing ability.

- Both a toner and a mist, **Dermalogica Age Smart Antioxidant Hydramist**, \$89, contains a patented polypeptide to prevent ageing caused by the reactions between sugars and proteins in the skin.
