VANILLA TREATS FOR YOU!

Understanding that outer beauty radiates from inner balance, Bioxil advocates a 360° approach to caring for skin, combining an innovative cosmeceutical skin-care range with nutritional supplements to protect, restore and repair on the outside, while nourishing, detoxifying and replenishing from the inside.

BIOXIL SKINCARE

Using breakthrough innovations like Nano Technology and Advanced Liposomal Delivery Technology, Bioxil skincare products penetrate skin cells more effectively to offer dermal and cell repair, minimising pores, blemish control and combating wrinkle lines. The Advanced Wrinkle Lifting Moisturiser is an intensive, high strength anti-aging moisturising cream that instantly firms the skin, reduce premature aging signs, stimulate collagen synthesis, while keeping skin hydrated.

BIOXIL INNERTREATS

This supplement range has three products — Inner D-Tox, M.Vital GT&F and M.Vital GT&F Plus — to nourish, detoxify and replenish from the inside. Ingredients like Green Tea, Milk Thistle and Glucose Tolerance Factor (GTF) help to lower cholesterol, enhance the digestive system, boost the immune system and combat ageing caused by glycation-damage directly resulting from eating sugar.
